Hi Jenny,

**Ex. 6 Personal Privacy (PP)**

sorry for the delayed response.

If it's not too late, I'd add Grand Ronde to the contact list.

Of the tribes on the list, I work with Warm Springs and Grand Ronde. Do you need contact for these tribes or are you all set?

Thanks,  
Kris

Hi Wes, Kris, and Alan,

I'm working on NPDES permits for the lower Columbia River dams, lower Snake River dams, and the Grand Coulee. I contacted Wes for staff contacts at the Umatilla and Yakama, but realized later that I should do a more thorough vetting to make sure I have the right list of tribes to contact. These permits are for small discharges from maintenance water (mostly oil and grease), cooling water, and navigation locks. It won't cover water spilled for juveniles, temperature behind reservoirs, or water used to generate electricity.

I looked at the tribal watersheds of interest maps, and here are the tribes I came up with who I should contact. Given the tribes that you work with, can you let me know if I'm missing any tribes? Please feel free to forward.

Grand Coulee Dam - Colville, Kalispel, and Spokane  
Lower Snake River dams (Ice harbor, Lower Monumental, Little Goose, and Lower Granite) - Nez Perce, Umatilla, Yakama  
Lower Columbia River dams (Bonneville, the Dalles, John Day, McNary) - Umatilla, Yakama, and Warm Springs

Thanks,  
Jenny
